MICROTIMA

Time switch specialists controllers for:

SCHOOL CROSSING HAZARD WARNING LIGHTS
(all makes)

VARIABLE MESSAGE & SECRET SIGNS
(Forest City, Rotasign etc.,)

- program switch times up to a year ahead easily and simply
- in the office or on site
- holidays, weekends, occasional days and times catered for
- solves many of the problems of current controllers
- maintains correct operation even after long power cuts
- makes possible considerable savings

For further details or information on our other controllers contact:

MICROTIMA LTD. 6 Jesmond Road, Newcastle upon Tyne, NE2 4PQ
Tel: 091 281 1171/281 8481 Fax: 091 490 1830
Telex: 265871 MONREF G 72: MAG 30870

VOLUME BINDERS

Securely and conveniently retain a year's copies of *Traffic Engineering + Control* not by metal rods, but by bonded nylon cords of great strength and durability which allow the easy insertion or removal of individual issues.

Each binder — covered in red Balacron PVC-coated board, and with the journal's name in gold foil on the spine — is supplied with a gold-foil, self-adhesive abbreviation of the Volume Number and Calendar Year — e.g. 28-87 for Vol. 28, 1987; 29-88 for Volume 29, 1988; and so on — which is easily affixed to a special panel on the spine. *It is essential that, when ordering, you specify the Calendar Year required.*

The binders cost £4.00 each, inclusive of VAT and inland/overseas postage. Send your instructions (remembering to specify a Calendar Year, and enclosing payment if possible) to

Printerhall Ltd
29 Newman Street
London W1P 3PE
